Provides protection in environments with higher ambient temperatures or radiant heat, such as in steel mills and foundries. Full Brim style shields from sun and rain.

GLO-MEGA® OMEGA II®

Glow-in-the-Dark head protection great for the mining industry, ship yards, underground utilities, and night highway construction.

Q: What causes the Glo-Mega to glow?
A: The glow is caused by photoluminescence, commonly referred to as glow-in-the-dark. The materials used in the Glo-Mega are nothing at all like the glow-in-the-dark materials of several years ago. They charge quickly and glow much brighter and much longer than the glow-in-the-dark items you may remember having as a child.

Q: How long does it take to charge the Glo-Mega?
A: Charging for 10 to 20 minutes in sunlight would be excellent to produce a strong long lasting glow. A half hour in bright fluorescent light would be very good. Even 20 minutes near a 40 watt incandescent bulb will generate a significant glow.

Q: How brightly does the Glo-Mega glow?
A: In intermediate levels of lighting, the Glo-Mega takes on a greenish color as the glow competes with the light from its surroundings. In dark conditions, the Glo-Mega’s glow has been measured at 1220 mcd/m² immediately after charging and, after ten minutes was still 45 times as bright as required by ASTM 2073 for emergency signage.

Q: How long can the glow be seen?
A: To eyes accustomed to the dark, the glow can be seen for several days or even weeks after a suitable charge.

Q: How does the after-glow of the Glo-Mega fade?
A: The fading begins as soon as the source of charging is removed - faster at first, then slowing over a long period of time. For a number of hours, this fading is partially offset by a dramatic increase in the sensitivity of the eye to see light.

Q: What is the useful life of the product?
A: The Glo-Mega has the normal life span of a molded polyethylene safety helmet. The photo luminescent properties however, should last almost indefinitely.

MEGA RATCHET® SUSPENSIONS

The “Secure-Fit” ratchet features an easy turn knob that allows size adjustment from head sizes 6.5 - 8 without removing the helmet. Each turn of the ratchet knob automatically locks with 50 meshing teeth securing the position. The no-slip hold maintains the desired fit even in the most physically active jobs or extreme weather conditions. The hinged ratchet fits low on the nape of the neck and is height-adjustable for a perfect fit. The ratchet mechanism is cushioned with thick sponge padding for long-lasting comfort.

**BUMP CAP REPLACEMENT SUSPENSION**

4-Point Plastic Pin-Lock Suspension

- **Moisture wicking brow pad is removable, washable and replaceable**
- **Pin-Lock sizing adjusts from head sizes 6.5 - 7.75**
- **Designed for use in industries such as automotive, pest control, meat packing, food processing and assembly facilities**
- **Rugged alternative to the 67 Bump Cap**
- **The Bump Cap is ideal for protecting head from lacerations, minor bumps and bruises in areas that do not require certified safety helmets**
- **Cap weight: 8.30 oz.**
- **Not a hard hat**
- **12 per carton**

Caution: Bump caps are not designed to protect against impact from falling or glancing objects. Does not meet ANSI/ISEA Z89.1

**67 BUMP CAP**

- Flat front for attaching personal gear such as lights or badges

**901 BUMP CAP**

- The pin lock suspension securely fastens in place from head size 6.5 - 7.75. This design functions similarly to some streetwear baseball caps. The moisture wicking brow pad is removable, washable and replaceable.

**USA MADE**

HEAD PROTECTION

ISO 9001:2015

Head Protection - Bump Caps

Bump Caps | Replacement Suspension
**H64 BALL CAP**
- 100% cotton (Camo is 65 poly/35 cotton blend)
- Premium quality six-panel cap
- Sewn eyelets
- Self-fabric strap with hook and loop closure
- Embroidery on ball cap available

**Bump Cap Inserts**
- Insert fits most low profile, 6 panel ball caps
- HDPE shell
- Ventilation eyelets promote air circulation to keep wearer cool
- Insert available with or without attached foam
- Fits head sizes 6.75 - 7.75
- Insert weight with Foam Pad: 4.0 oz.
- Insert weight without Foam Pad: 3.2 oz.
- Not a hard hat
- Does not meet ANSI/ISEA Z89.1
- Ponytail compatible

**913 BALL CAP BUMP**
- 100% cotton ball cap with padded insert
- Protects against lacerations, minor bumps and bruises in areas that do not require certified safety helmets
- Fits head sizes 6.75” - 7.375”
- Hook & loop size adjustment
- Vent holes for breathability
- 913 shell not interchangeable with any other ball cap
- Embroidery on ball cap available
- Cap weight: 5.7 oz.
- Not a hard hat
- Does not meet ANSI/ISEA Z89.1
- 12 Per carton

Caution: Bump caps are not designed to protect against impact from falling or glancing objects. Does not meet ANSI/ISEA Z89.1
Products you know. Products we logo.

**LOGO. LEADER.** is ERB Safety’s in-house product customization service which includes pad print, screen print, vinyl heat transfer as well as other custom services.

All hard hats can be printed on the front, sides and/or back with up to four spot colors. We maximize logo size to best show on each product.

We strive to produce the finest print outcome. Due to the inherent composition and inconsistencies of some materials, including plastic, slight color variations may result.

Contact a Logo Leader Specialist at 855-621-9100

### HEAD PROTECTION COLOR REFERENCE CHART

A wide range of quality Made in USA Hard Hats and Bump Caps to meet wearers’ needs.

If we do not stock the style in the color needed, we manufacture custom color products in-house (see right).

**Custom Colors Available.** Minimum run size:

- 288 for Caps
- 218 for Full Brims

Colors marked ✱ are not stocked, but available within 10 business days of confirmed purchase order.

ERB Safety does not assume responsibility for errors or damage to our products when printed by third parties.
NEW HIRE KIT ADVANTAGES

- Consolidate many SKU’s into one
- Neatly shrink wrapped
- Easy to distribute

Hat Rack | 17960
Some models are treated with flame retardant finish that can hold up to 5 washings. FS1 and FS3 models contain inherent fire resistant material. Hooded styles are equipped with adjustable chin straps and safety helmet attachment straps.

**2009F**
- Lightweight 100% cotton
- No inner lining

**4000F**
- Durable 100% cotton twill shell
- Fleece lining

**2500**
- Quilted nylon tricot outer shell
- Fleece lining

**7000F**
- 100% cotton twill outer shell
- Synthetic sheepskin lining
- Extended nape for extra neck protection

**8000F**
- Knitted polyester and spandex
- Elastic for snug fit
- Place around the edge of safety helmet to prevent wind from tunneling under the helmet
- Fits all ERB Safety cap style hard hats

**9000F**
- 100% Polyester knit
- Elastic for snug fit
- Place around the edge of safety helmet to prevent wind from tunneling under the helmet
- Fits all ERB Safety cap style hard hats

**2100**
- 100% cotton twill shell
- Non-durable treated flame retardant
- Heavy sherpa lining
- Extra long nape for additional protection
- Washing will reduce flame retardant treatment

**FS3**
- 100% cotton with 100% cotton flannel liner
- Durable fire resistant material meets ASTM F1506 Standard ATPv 9.3 cals/cm2
- Equipped with safety helmet attachment straps
- Extra long nape for additional protection

**FS1**
- 100% cotton with 100% cotton flannel liner
- Durable fire resistant material meets ASTM F1506 Standard ATPv 9.3 cals/cm2
- Equipped with adjustable chin strap and helmet straps

**Omega II® Mega Ratchet® Safety Helmet (Orange)**
- Meets ANSI/ISEA Z89.1, Type 1, Class C, E and G requirements
- 4000 Steel Mesh Face Screen provides protection from flying debris and meets the requirements of ANSI/ISEA Z87.1 (Not Impact Rated). Epoxy coated for glare and corrosion resistance
- 5000 Visor Carrier has resilient cam-lock feature that holds the face screen in place. Can be raised or lowered to three fixed positions
- 2800 Sound Shield Ear Muff Attachment fits into accessory slots of helmet and meets ANSI S3.19 requirements. Dielectric. NRR 28dB
- 1116 Chin Strap is made of durable elastic that provides comfort and control

### Additional Information
- Primary eye protection must be worn with impact protection face shields. Face shields are considered secondary eye protection only.
- All Brackets and Headgear offered by ERB Safety are designed for use with ERB Safety’s hard hats.
E17 Plastic Accessory Slot Face Shield Carrier
• Adjustable tension for raising shield when not in use
• Designed to fit into safety helmet accessory slots
• Dielectric
• Adjusts for ease of window movement
• Meets ANSI Z87.1 – Impact when paired with 8150 or 8168 polycarbonate shield
• 1 per carton

E18 Nylon Face Shield Carrier
• Adjustable tension for raising shield when not in use
• Dielectric
• Meets ANSI Z87.1 – Impact when paired with 8150 or 8168 polycarbonate shield
• 6 per carton

E19 Aluminum Face Shield Carrier
• Adjustable tension for raising shield when not in use
• Heat resistant
• Meets ANSI Z87.1 – Impact when paired with 8150 or 8168 polycarbonate shield
• 6 per carton

E20 Aluminum/ABS Face Shield Carrier
• ABS frame securely fits around helmet bill
• Durable aluminum carrier
• Meets ANSI Z87.1 – Impact when paired with 8150 or 8168 polycarbonate shield
• 6 per carton

E21 Aluminum Face Shield Carrier
• Adjustable tension for raising shield when not in use
• Heat resistant
• Meets ANSI Z87.1 – Impact when paired with 8150 or 8168 polycarbonate shield
• 6 per carton

5001 Nylon Face Shield Carrier
• Face shield carrier with hard hat slot attachments
• Adjustable tension
• Accommodates 12” or 15.5” shields up to .060” thick
• Dielectric
• Meets ANSI Z87.1 – Impact when paired with 8150 or 8168 polycarbonate shield
• 1 per carton

Primary eye protection must be worn with impact protection face shields. Face shields are considered secondary eye protection only.
All Brackets and Headgear offered by ERB Safety are designed for use with ERB Safety’s hard hats.
COOLERZ® RETAIL READY

ADVANCED EVAPORATIVE COOLING TECHNOLOGY

Coolerz® Vest, Crown Cooler and Neck Shield use an advanced evaporative cooling system with a water management system to maximize cooling, while minimizing moisture transfer to the wearer.

• Enhanced cooling capacity
• Managed and directional evaporative cooling release
• Cools longer than other evaporative systems
• Reduces wetness to wearer
• Water repellent nylon inner
• Quilted nylon outer

Coolerz® products utilize a unique polymer chemistry to achieve rapid absorption and stable water storage. The chemical formulation creates enhanced evaporation and longevity. Users can expect the evaporative cooling fabric to provide temperatures that are up to 15 - 20 degrees (F) cooler than the ambient temperature. The exact temperature difference will depend on humidity, exposure to airflow and other environmental conditions.

**Easy to use.** Simply submerge in water for 1-2 minutes, then gently remove excess water. Garments will remain hydrated for several hours and can be rehydrated as needed.

**C420 Neck Shield**
• Adjustable hook and loop attaches to hard hat suspension
• 6 per carton

**C421 Crown Cooler**
• Adjustable hook and loop attaches to hard hat suspension

  - Attaches to belt for convenience
  - 12 per carton

All hearing protection meet the requirements of ANSI S3.19
According to the 2017 Bureau of Labor Statistics, 9 percent of construction workers and 30 percent of manufacturing workers are women. Not surprisingly, the demand for products specifically designed for women is increasing. Women seek products designed with form, fit, function, color and style.

W651 Women’s Fitted Soft Shell Jacket (Type R, Class 2)
- Women’s Lightweight, all-season jacket with 3 multi-fused interior layers
- Rain guard zipper closure with interior storm flap
- Comfort collar, fleece lined
- Breathable, waterproof and wind resistant
- Comfortable polyester/spandex outer shell fused with fleece liner
- 2 exterior slash pockets with rain guard zipper closure
- Channeled hem with cinch cord and cord lock for adjustable fit
- Contoured waist
- Deluxe adjustable cuffs
- Meets all levels of water protection, up to and including “waterproof” per ANSI/ISEA 107

I FR150Z Inherent Flame Resistant Solid (Type R, Class 2)
• Inherent flame resistant Modacrylic/Aramid blend
• Complies with the requirements of ANSI/ISEA 107-2015 for an FR garment
• Meets ASTM F1506 (ATPv 5.5 cal/cm²) HRC 1
• 2” inherent flame resistant 3M™ Scotchlite™ reflective material, FR binding and thread
• 2 interior waist pockets
• Interior left chest pocket includes 1 pen compartment
• Zipper front closure

I FR150 Inherent Flame Resistant Solid (Type R, Class 2)
• Same as the IFR150Z except with hook & loop front closure

I FR152Z Inherent Flame Resistant Mesh (Type R, Class 2)
• Inherent flame resistant Modacrylic/Aramid blend mesh
• Complies with the requirements of ANSI/ISEA 107-2015 for an FR garment
• Meets ASTM F1506 (ATPv 4.6 cal/cm²) HRC 1
• 2” inherent flame resistant 3M™ Scotchlite™ reflective material, FR binding and thread
• 2 interior waist pockets
• Interior left chest pocket includes 1 pen compartment
• Zipper front closure

I FR152 Inherent Flame Resistant Mesh (Type R, Class 2)
• Same as the IFR152Z except with hook & loop front closure

I FR153 Inherent Flame Resistant Anti Static Mesh (Type R, Class 2)
• Inherent flame resistant Modacrylic/Para-Aramid/Nega-Stat® blend mesh
• Complies with the requirements of ANSI/ISEA 107-2015 for an FR garment
• Meets ASTM F1506 (ATPv 5.2 cal/cm²) HRC 1
• Background material meets EN1149 anti static requirements
• 2” inherent flame resistant 3M™ Scotchlite™ reflective material, FR binding and thread
• 2 interior waist pockets
• Interior left chest pocket includes 1 pen compartment
• Hook & loop front closure

9503IFR Long Sleeve Inherent Flame Resistant (Type R, Class 3)
• Inherent flame resistant Modacrylic/Rayon/Twaron blend
• Complies with the requirements of ANSI/ISEA 107-2015 for a FR garment
• 2” inherent flame resistant 3M™ Scotchlite™ reflective material 8735
• Inherent flame resistant rib knit collar and thread
• Meets ASTM F1506 (ATPv 10 cal/cm²) HRC 2
• Moisture wicking

Meets ANSI/ISEA 107-2015 Requirements
These flame retardant treated garments do not meet criteria as defined by ANSI/ISEA 107-2015

S190 Flame Retardant Treated
Background Material
(Type R, Class 2)
- Flame retardant treated 100% polyester tricot background material
- 2 exterior waist pockets
- 1 interior chest pocket, with 1 interior pen pocket
- 2” silver reflective tape
- Hook & loop front closure
- Does not comply with the flame resistant requirements of ANSI/ISEA 107-2015 Standard as an FR garment

S195C Flame Retardant Treated
Background Material With Contrasting Trim
(Type R, Class 2)
- Flame retardant treated polyester knitted mesh background material
- 2” silver reflective tape backed by contrasting trim
- 1 exterior left chest pocket
- 1 interior right waist pocket
- Zipper front closure
- Does not comply with the flame resistant requirements of ANSI/ISEA 107-2015 Standard as an FR garment

S365 Flame Retardant Treated
Background Material with Flame Resistant Components (Type R, Class 2)
- Flame retardant treated 100% polyester tricot background material
- Flame resistant components include thread and 3M 8935 Silver Industrial Wash Flame Resistant retroreflective
- 2 exterior flapped waist pockets with hook & loop closure
- Interior left chest pocket includes pen compartment
- Hook & loop front closure
- Does not comply with the flame resistant requirements of ANSI/ISEA 107-2015 Standard as an FR garment

Note: To prolong life of flame retardant treatment, do not wash.

ANSI/ISEA 107-2015 Inherent Flame Resistant vs. Flame Retardant Treated

Inherent Flame Resistant apparel are garments which are tested and meet various industry standards that require self-extinguishment of the garment after exposure to flames, sparks and more. Garments labeled under the ANSI 107-2015 Standard shall state that flame retardant treated garments do not provide fire protection.

Flame Retardant Treated is a chemical used to treat materials for self-extinguishment which may or may not meet any accepted industry standards. Caution: Logos applied to Flame Retardant Treated fabrics may decrease the effectiveness of the garment’s flame retardant properties.

ANSI/ISEA 107-2015 uses the term Flame Resistance for high visibility garments which fully meet one or more of the following standards:
- ASTM F1506
- ASTM F1891
- ASTM F2302
- ASTM F2733
- NFPA 1971
- NFPA 1977
- NFPA 2112

WARNING: Purchasing a vest requires careful selection to ascertain if the garment will protect a worker from sources of heat or ignition that may be present in the work zone. Some commercially available garments listed as FR treated may not give the level of protection called for by the ANSI/ISEA standard, and may not last for more than one wear/wash cycle, nor may all components have flame resistant properties even if the label states that it meets ANSI/ISEA 107. The label must indicate one of the foregoing ASTM or NFPA standards to be considered Inherent Flame Resistant under the ANSI/ISEA 107-2015 Standard.

ERB Safety ANSI/ISEA 107-2015 Update – Labeling changes are underway on all Aware Wear Inherent Flame Resistant and Flame Retardant Treated vests. All flame resistant vests meet the performance criteria of ANSI/ISEA 107-2015 except for required labeling.

Meets ANSI/ISEA 107-2015 Requirements
S362 Economy Mesh (Type R, Class 2)
- 100% polyester mesh
- No pockets
- Hook & loop front closure

S362P Economy Mesh with Pockets (Type R, Class 2)

Meets ANSI/ISEA 107-2015 Requirements

LOGO.LEADER. Products You Know. Products We Logo.

LOGO. LEADER. is ERB Safety’s in-house product customization service which includes pad print, screen print, vinyl heat transfer as well as other custom services. We maximize logo sizing to best show logos on each product.

**Screen Printing/Vinyl Heat Seal** (See 2020 price list for program details)

Aware Wear high visibility apparel includes: vests, t-shirts, sweatshirts, bandanas, boonie hats, jackets, rain wear and more.

Gloves – our most popular logo’d gloves are ERB Safety’s Mechanics Gloves styles: M100, M200, M300.

**SCREEN PRINTING**

Let ERB handle your Screen Printing needs. Low minimum order quantities of 12 pieces, low cost and fast lead times! We use polyester based ink to ensure your logo is top quality and will properly adhere to the garment. Print up to 4 spot colors.

**CUSTOM VINYL TRANSFER PRINTING**

With a low minimum order of 12 pieces, ERB makes it easy to order Custom Vinyl Transfer Printing. Choose from full color, multi-color or complicated designs. Unlike screen printing, vinyl lays over mesh holes on the vest, allowing for more accuracy and precision.

**CUSTOM EMBROIDERY**

ERB also offers Embroidery services! Low minimum order quantities of 36 pieces, low cost and fast lead time! Whether it be on a safety vest, polo shirt or boonie hat, ERB can service your needs. Call for your quote now on up to 10,000 stitches and unlimited colors.
9602 Non-ANSI Long Sleeve

Meets ANSI/ISEA 107-2015 Requirements
RAIN WEAR
**S373 Attached Hood Rain Jacket (Type R, Class 3)**
- 100% polyester 150D oxford with PU coating
- Elastic waist band
- Snap ankle and fly closure
- Pocket slits on side with rain guard
- Class E (for Ensemble) when worn without other ANSI/ISEA 107-2015 compliant garments
- Class 3 when worn with a Class 2 or Class 3 upper garment
- Meets all levels of water protection, up to and including “waterproof” per ANSI/ISEA 107

**S373PT Rain Pants**
- Lightweight 100% polyester oxford with PU coating
- Elastic waist band
- Snap ankle and fly closure
- Pocket slits on side with rain guard
- Class E (for Ensemble) when worn without other ANSI/ISEA 107-2015 compliant garments
- Class 3 when worn with a Class 2 or Class 3 upper garment
- Meets all levels of water protection, up to and including “waterproof” per ANSI/ISEA 107

**S373D Detachable Hood Rain Jacket (Type R, Class 3)**
- 100% polyester 150D oxford with PU coating
- Elastic waist band
- Snap ankle and fly closure
- Detachable and stowable hood
- Length ranges from 30.5” to 33.5” in 1” increments (dual size)
- Meets all levels of water protection, up to and including “waterproof” per ANSI/ISEA 107

**S373PTB (S373BTP) Rain Pants**
- Lightweight 100% polyester oxford with PU coating
- Elastic waist band
- Snap ankle and fly closure
- Pocket slits on side with rain guard
- Class E (for Ensemble) when worn without other ANSI/ISEA 107-2015 compliant garments
- Class 3 when worn with a Class 2 or Class 3 upper garment
- Meets all levels of water protection, up to and including “waterproof” per ANSI/ISEA 107

*Shown with hood attached*
S371 Rain Coat
(Type R, Class 3)
- 100% polyester 300D oxford with PU coating
- Zippered closure with snaps and storm flap for additional protection from wind and rain
- Lining is constructed of 100% polyester mesh for comfort
- Detachable and stowable hood
- 2 exterior waist level flapped pockets with snap closure. 7" W x 8" D
- 1 chest radio/phone pocket flapped with hook & loop closure. 3" W x 5" D with 1" gusset
- Length ranges from 30" to 33" in .5" increments
- Interior waist drawstring
- Vents on back side for breathability
- Fully zips for extra protection
- Matches rain pants color
- Meets all levels of water protection, up to and including “waterproof” per ANSI/ISEA 107

S849 Rain Pants
- 100% polyester woven 300D oxford with PU coating
- Elastic waist with drawstring
- Snap ankle closure
- Pocket slits on side with rain guard
- Class E (for Ensemble) when worn without other ANSI/ISEA 107-2015 compliant garments
- Class 3 when worn with a Class 2 or Class 3 upper garment
- Meets all levels of water protection, up to and including “waterproof” per ANSI/ISEA 107

S163 Long Rain Coat
(Type R, Class 3)
- 100% polyester 150D oxford with PU coating
- Zipper and snap front closure
- Mesh lining
- Detachable and stowable hood
- 2 exterior waist level slash pockets with rain guard
- Length ranges from 50" to 53" in .5" increments
- Vent holes under arms
- Meets all levels of water protection, up to and including “waterproof” per ANSI/ISEA 107

S860BIB Rain Bib
- 100% polyester 300D with PU coating
- Adjustable snaps on leg opening and back waist
- Snap fly closure
- Upper chest pocket: 1 large pocket with zipper, 1 cell phone pocket, 4 pen compartments
- 2 large back pockets
- Adjustable suspender straps
- Class E (for Ensemble) when worn without other ANSI/ISEA 107-2015 compliant garments
- Class 3 when worn with a Class 2 or Class 3 upper garment
- Meets all levels of water protection, up to and including “waterproof” per ANSI/ISEA 107
### BP1 Backpack
- 100% polyester 600D Oxford with PVC coating
- Adjustable straps
- Silver reflective stripes
- 2 side pockets with mesh vents
- Front mesh pocket large enough to hold full brim hard hat
- Water repellent
- 1 per carton

### A130 Hoodoo™ Block the Elements
- Configures for multi-uses to block wind, sun, and dust
- 100% moisture wicking seamless polyester
- Machine washable
- Odor resistant
- One size fits most
- 1 per carton

### S486 Leg Gaiter
- Polyester oxford with PU coating
- One size fits most, 17.5" long, adjustable width with hook & loop closure
- Reflective tape for visibility
- Meets ANSI 107-2015 Class E
- 1 pair per carton

### S487 Contrasting Trim Leg Gaiter
- Polyester oxford with PU coating
- One size fits most, 17.5" long, adjustable width with hook & loop closure
- 2" silver reflective tape backed by contrasting orange trim
- Meets ANSI 107-2015 Class E
- 1 pair per carton

### S268 Mesh Neck Shield
- 100% polyester birdseye knit mesh
- Provides protection from sun and heat while increasing visibility
- Elastic band fits securely around brim of all ERB cap and full brim style helmets
- 3 per carton

### S230 Boonie Hat
- Polyester woven 300D oxford with PU coating
- 360° polyester mesh venting
- One size fits most, 24" circumference
- 1" reflective tape with contrasting trim
- Adjustable strap with cinch clasp
- ANSI/SEA 107-2015 Class Headwear
- 1 per carton

### S109 Knit Cap
- 100% acrylic
- Silver reflective stripe on S109 knit cap
- Great to wear under an ERB Safety hard hat or alone
- One size fits most
- S109LED includes USB rechargeable LED light with 3 brightness levels

### A110 Doo Rags
- 100% polyester birdseye knit mesh
- Three panel headwrap
- One size fits most
- 1 per carton

### S108 Ball Cap
- 100% polyester 300D oxford
- Two 100% polyester mesh venting panels
- Adjustable hook & loop closure
- Meets ANSI/SEA 107-2015 Requirements
- 1 per carton

### S291 Hard Hat Cover
- Contrasting mesh color and reflective material greatly enhance both day and night visibility
- Fits all ERB cap and full brim style helmets
- Elastic band fits securely around hat brim
- 3 per carton

### A130 Hoodoo™ Block the Elements
- Configures for multi-uses to block wind, sun, and dust
- 100% moisture wicking seamless polyester
- Machine washable
- Odor resistant
- One size fits most
- 1 per carton

### S486 Leg Gaiter
- Polyester oxford with PU coating
- One size fits most, 17.5" long, adjustable width with hook & loop closure
- Reflective tape for visibility
- Meets ANSI 107-2015 Class E
- 1 pair per carton

### S487 Contrasting Trim Leg Gaiter
- Polyester oxford with PU coating
- One size fits most, 17.5" long, adjustable width with hook & loop closure
- 2" silver reflective tape backed by contrasting orange trim
- Meets ANSI 107-2015 Class E
- 1 pair per carton

### S268 Mesh Neck Shield
- 100% polyester birdseye knit mesh
- Provides protection from sun and heat while increasing visibility
- Elastic band fits securely around brim of all ERB cap and full brim style helmets
- 3 per carton

### S230 Boonie Hat
- Polyester woven 300D oxford with PU coating
- 360° polyester mesh venting
- One size fits most, 24" circumference
- 1" reflective tape with contrasting trim
- Adjustable strap with cinch clasp
- ANSI/SEA 107-2015 Class Headwear
- 1 per carton

### S109 Knit Cap
- 100% acrylic
- Silver reflective stripe on S109 knit cap
- Great to wear under an ERB Safety hard hat or alone
- One size fits most
- S109LED includes USB rechargeable LED light with 3 brightness levels

### A110 Doo Rags
- 100% polyester birdseye knit mesh
- Three panel headwrap
- One size fits most
- 1 per carton

### S108 Ball Cap
- 100% polyester 300D oxford
- Two 100% polyester mesh venting panels
- Adjustable hook & loop closure
- Meets ANSI/SEA 107-2015 Requirements
- 1 per carton

### S291 Hard Hat Cover
- Contrasting mesh color and reflective material greatly enhance both day and night visibility
- Fits all ERB cap and full brim style helmets

### S268 Mesh Neck Shield
- 100% polyester birdseye knit mesh
- Provides protection from sun and heat while increasing visibility
- Elastic band fits securely around brim of all ERB cap and full brim style helmets
- 3 per carton
A2H-110
ANSI A2 Cut Resistant with Nitrile Micro-Foam Coating and Extended Thumb Saddle

- A2 (low) cut protection liner uses HPPE fibers for flexibility and strength
- Nitrile Micro-Foam coating provides excellent grip in light oil conditions
- Excellent abrasion resistance with extended protection between thumb and index finger
- Elasticized cuff designed to keep out dirt and debris
- Touchscreen
- Meets the A2 cut level of ANSI/ISEA 105
- 12 pair

A2H-241
ANSI A2 Cut Resistant with PU Coating

- A2 (low) cut protection liner uses HPPE for flexibility and strength
- PU coating provides excellent grip in dry conditions
- Excellent abrasion and tear resistance
- Elasticized cuff designed to keep out dirt and debris
- Meets the A2 cut level of ANSI/ISEA 105
- 12 pair

A4H-110
ANSI A4 Cut Resistant with Nitrile Micro-Foam Coating

- A4 (medium) cut protection liner uses HPPE and steel fibers for flexibility and strength
- Nitrile Micro-Foam breathable coating provides excellent grip in light oil conditions
- Excellent abrasion and tear resistance
- Elasticized cuff designed to keep out dirt and debris
- Meets the A4 cut level of ANSI/ISEA 105
- 12 pair

More Glove Offerings! Please refer to the Price list page 27 to see gloves in the following categories:
ANSI Cut Resistant Gloves and Sleeve • Winter • PU Coated • Pigskin Leather • Full Dipped • Disposable
A4H-241
ANSI A4 Cut Resistant with PU Coating

- A4 (medium) cut protection liner uses HPPE and steel fibers for flexibility and strength
- PU coating provides excellent grip in dry conditions
- Excellent abrasion and tear resistance
- Elasticized cuff designed to keep out dirt and debris
- Meets the A4 cut level of ANSI/ISEA 105
- 12 pair

A5A-110
ANSI A5 Cut Resistant with Nitrile Micro-Foam Coating

- A5 (medium/high) cut protection liner uses aramid and steel fibers to provide a high level of cut strength with a comfortable and flexible fit
- Nitrile Micro-Foam breathable coating provides excellent grip in a wide range of conditions
- Excellent abrasion and tear resistance
- Elasticized cuff designed to keep out dirt and debris
- Meets the A5 cut level of ANSI/ISEA 105
- 12 pair

A7A-120
ANSI A7 Cut Resistant with Nitrile Sandy Coating

- A7 (high) cut protection liner uses aramid, HPPE and steel fibers to provide superior cut strength with a comfortable and flexible fit
- Nitrile Sandy coating provides excellent grip in wet and rugged conditions
- Excellent abrasion, tear and puncture resistance
- Elasticized cuff designed to keep out dirt and debris
- Meets the A7 cut level of ANSI/ISEA 105
- 12 pair

| ERB10 Rebar Cap | 16910 |

Hothands® warmers are single use air-activated heat packs that provide everyday warmth and are ideal for keeping your body warm when the temperature gets cold. They’re available in several styles designed for hands, feet, and body. Have you tried them all?

How do HotHands® warmers work?
Hothands® contain ingredients like iron, activated carbon and water. Once these ingredients come into contact with the oxygen in the air, the ingredients oxidize and produce heat. The combination of ingredients has been specially formulated to ensure a constant and comforting heat for a wide variety of uses.

- Up to 8 hours or more of long lasting heat!
- Ready to Use
- Air-Activated
- Safe, Natural Heat

DESCRIPTION |

4148 Rain Coat
- .35mm PVC polyester 48" rain coat
- Vented cape back
- Detachable hood
- Corduroy collar
- 2 outside pockets with flaps
- Snap front closure
- Light to medium duty
- Applications: Survey Crews, Military, Law Enforcement, Ranching and Forestry
- 1 per carton

4035 Rain Suit
- .35mm PVC over polyester 3 piece rain suit
- Jacket has a vented cape back, 5 snap front closure with storm flap, 2 front pockets with flaps and a corduroy collar
- Detachable draw-string hood
- Overalls have adjustable elastic suspenders and nonconductive/noncorrosive D-ring buckles and studs. Single snap fly.
- Adjustable snap closures on wrists and ankles
- Light to medium duty
- Applications: Construction, Road Work, Utilities, Survey Crews and Forestry
- 1 per carton

CALIFORNIA PROP 65
WARNING: This product can expose you to chemicals including di-ethyl hexyl phthalate which is known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.

Additional Rain Wear on Pages 79-81
Contact ERB Safety to quote other 3M™ PPE Safety Solutions items not listed.

**RESPIRATOR ACCESSORIES**

- **504**
  - Respirator cleaning wipes
  - 8" x 10" towelettes are alcohol-free and will not damage the facepiece materials
  - 100 per box
  - Item # 13595

- **6885 Clear**
  - 6886 Tinted Lens Cover
  - For 6000 series full facepiece respirators to protect and extend life of shield
  - 25 per bag
  - Clear - Item # 13552
  - Tinted - Item # 13600

- **7899-100**
  - Clear lens cover
  - For 7000 series full facepiece respirator to protect and extend life of shield
  - 100 per box
  - Item # 13620

**WARNING!**

These respirators help protect against certain airborne contaminants. Before use, the wearer must read and understand the USER Instructions provided as a part of the product packaging. A written respiratory protection program must be implemented meeting all the requirements of OSHA 1910.134 including training, fit testing and medical evaluation. In Canada, CSA standards Z94.4 requirements must be met and/or requirements of the applicable jurisdiction, as appropriate. Misuse may result in sickness or death. For proper use, see packaging instructions, supervisor, or call 3M PSD Technical Service in USA at 1-800-243-4630 and in Canada at 1-800-267-4414.
CARTRIDGES†

6001 OV=NIOSH
• Approval: Certain organic vapors
  • 1 pair
  Item # 13538

6002 AG=NIOSH
• Approval: Chlorine, hydrogen chloride, hydrogen sulfide, sulfur dioxide, or chlorine dioxide
  • 1 pair
  Item # 13539

6003 OV/AG=NIOSH
• Approval: Certain organic vapors, chlorine, hydrogen chloride, sulfur dioxide, chlorine dioxide, hydrogen sulfide or hydrogen fluoride
  • 1 pair
  Item # 13540

6004 AM/MA=NIOSH
• Approval: Ammonia and methyamine
  • 1 pair
  Item # 13541

† Cartridges can be used with 6000 series respirators
‡ OSHA requires that gas-proof goggles be worn with half facepiece respirators when used against formaldehyde.

5000 Series respirators are disposable.
The cartridges cannot be replaced.

FILTERS AND RETAINERS

501
• Filter retainer for use with 5N11 and 5P71 filters
  • 20 per box
  Item # 13544

2071
• P100 filter
  • 1 pair
  Item # 13545

5N11
• N95 Particulate Pre-filter
  • 10 per box
  Item # 13543

2097 §
• P100 filter with nuisance level organic vapor relief
  • 1 pair
  Item # 13596

502
• Filter adapter for use with 2000 Series and 7093 filters.
  • 20 per box
  Item # 13566

2091
• P100 filter
  • 1 pair
  Item # 13546

5P71
• P100 Pre-filter
  • 10 per box
  Item # 13574

7093
• P100 filter
  • 12 per box
  Item # 13594

† Cartridges can be used with 6000 series respirators
‡ OSHA requires that gas-proof goggles be worn with half facepiece respirators when used against formaldehyde.

§ 2097 Nuisance level refers to concentrations below current OSHA PEL or applicable government exposure limits whichever is lower.

**AG** = Nuisance level refers to concentrations below the OSHA PEL or applicable government exposure limits, whichever is lower.

**OV** = Nuisance level refers to concentrations below the OSHA PEL or applicable government exposure limits, whichever is lower.

Oz.* = 3M recommended for ozone protection up to 10 times the OSHA PEL. NOTE: This product is not NIOSH approved for ozone protection.

8233*** & 8293*** = Substance specific regulated particles include but are not limited to lead, cadmium, arsenic, 4,4’-methyleneedianiline (MDA) in concentrations up to 10x the OSHA PEL. Do not use for asbestos exposures.

**WARNING!** These respirators help protect against certain airborne contaminants. Before use, the wearer must read and understand the USER Instructions provided as a part of the product packaging. A written respiratory protection program must be implemented meeting all the requirements of OSHA 1910.134 including training, fit testing and medical evaluation. In Canada, CSA standards Z94.4 requirements must be met and/or requirements of the applicable jurisdiction, as appropriate. Misuse may result in sickness or death. For proper use, see packaging instructions, supervisor, or call 3M PSD Technical Service in USA at 1-800-243-4630 and in Canada at 1-800-267-4414.
CALIFORNIA PROPOSITION 65
also known as Prop 65 and as Safe Drinking Water and Toxic Enforcement Act of 1986

What Is Proposition 65?
Proposition 65 requires businesses to notify Californians about significant amounts of chemicals in the products they purchase, in their homes or workplaces, or that are released into the environment. By providing this information, Proposition 65 enables Californians to make informed decisions about protecting themselves from exposure to these chemicals.

The Office of Environmental Health Hazard Assessment (OEHHA) administers the Proposition 65 program. OEHHA, which is part of the California Environmental Protection Agency (Cal/EPA), also evaluates all currently available scientific information on substances considered for placement on the Proposition 65 list.

What types of chemicals are on the Proposition 65 list?
The list contains a wide range of naturally occurring and synthetic chemicals that are known to cause cancer or birth defects or other reproductive harm. These chemicals include additives or ingredients in pesticides, common household products, food, drugs, dyes, or solvents. Listed chemicals may also be used in manufacturing and construction, or they may be by-products of chemical processes, such as motor vehicle exhaust.

What requirements does Proposition 65 place on companies doing business in California?
Businesses are required to provide a “clear and reasonable” warning before knowingly and intentionally exposing anyone to a listed chemical. This warning can be given by a variety of means, such as by labeling a consumer product, posting signs at the workplace, distributing notices at a rental housing complex, or publishing notices in a newspaper. Once a chemical is listed, businesses have 12 months to comply with warning requirements.

What does a warning mean?
If a warning is placed on a product label or posted or distributed at the workplace, a business, or in rental housing, the business issuing the warning is aware or believes that one or more listed chemicals is present. By law (in California), a warning must be given for listed chemicals unless exposure is low enough to pose no significant risk of cancer or is significantly below levels observed to cause birth defects or other reproductive harm.

However, a business may choose to provide a warning simply based on its knowledge, or assumption, about the presence of a listed chemical without attempting to evaluate the levels of exposure. The business issuing the warning should be contacted for specific information, such as what chemicals are present, and at what levels, as well as how exposure to them may occur.

Who enforces Proposition 65? (only for California)
The California Attorney General’s Office enforces Proposition 65. Any district attorney or city attorney (for cities whose population exceeds 750,000) may also enforce Proposition 65. In addition, any individual acting in the public interest may enforce Proposition 65 by filing a lawsuit against a business alleged to be in violation of this law. Lawsuits have been filed by the Attorney General’s Office, district attorneys, consumer advocacy groups, and private citizens and law firms. Penalties for violating Proposition 65 by failing to provide notices can be as high as $2,500 per violation per day.

Although Proposition 65 has benefited Californians, it has come at a cost for companies doing business in the state. They have incurred expenses to test products, develop alternatives to listed chemicals, reduce discharges, provide warnings, and otherwise comply with this law. Recognizing that compliance with Proposition 65 comes at a price, OEHHA is working to make the law’s regulatory requirements as clear as possible and ensure that chemicals are listed in accordance with rigorous science in an open public process.

Where can I get more information on Proposition 65?
For general information on the Proposition 65 list of chemicals, you may contact OEHHA’s Proposition 65 program at (916) 445-6900, or visit the Proposition 65 page. For enforcement information, contact the California Attorney General’s Office at (510) 622-2160, or visit http://ag.ca.gov/prop65/

Excerpted from The Office of Environmental Health Hazard Assessment (OEHHA) website: oehha.ca.gov/proposition-65/general-info/proposition-65-plain-language

ERB Safety displays the Prop 65 Warning in multiple languages as required. Throughout the catalog, when you see a Prop 65 warning only the specific products it refers to are subject to California’s Prop 65. For more information on ERB Safety and Prop 65 contact us at 800.800.6522.

This is an example of one type of Prop 65 Warning:
LOGO.LEADER. is ERB Safety’s in-house product customization service which includes pad print, screen print, vinyl heat transfer as well as other custom services. We maximize the size of logos to best show on each product.

We strive to produce the finest print outcome. Due to the inherent composition and inconsistencies of some materials, including plastic and fabric, slight color variations may result.
